BFA, Industrial Design
Rhode Island School of Design
2011 — 2015

Cross-Registration, Philosophy
Brown University
2014

About me

Lead Product Designer with 10+ years of experience designing complex, data-driven products across civic tech, AI, robotics, fintech, and enterprise platforms. I specialize in partnering closely with founders, executives, and engineering teams to implement 0→1 product development, design systems, and translating deeply technical systems into clear, human-centered experiences.

Experience

Founding Designer — GovWell

New York, NY • Spring 2025 — Present

Owned full 0→1 design lifecycle for Plan Review, a React-based building plan review platform. Enabled government staff to complete entire application life cycles within a single system. Partnered with C-suite on go-to-market strategy and fundraising, contributing to \$9.5M in seed funding.

Founding → Lead Designer — Viam

New York, NY • Fall 2021 — Spring 2025

Led design of Viam's web app from concept to launch across fleet management, AI, and data tooling. Scaled platform to 40+ B2B partnerships and 2,750+ community members, driving \$32M projected revenue. Built and led the PRIME design system and grew the design team from 1 to 5 designers.

Senior Product Designer — HEB via RevUnit

New York, NY • Winter 2019 — Summer 2021

Designed internal tools for H-E-B used by 400+ buyers and analysts. Reduced shelf planning time by 78% and cut assortment tailoring from 20 hours to 1. Expanded the Mortar design language system with new components and documentation.

Experience Designer — USAA

San Antonio, TX • Fall 2017 — Winter 2019

Led design for the Manage My Money experience, reducing balance inquiry time by 27%. Increased member satisfaction by 8%. Introduced USAA's first augmented-reality auto-buying experience.

UI/UX Designer — SAIC

Aberdeen Proving Grounds, MD • Fall 2015 — Fall 2017

TS/SCI clearance granted - read on programs available on a need to know basis.
